## **DETAILED ACTION**

### ***Terminal Disclaimer***

1. The terminal disclaimer filed on August 29, 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted on Applications No's. 10/342,177, 10/368,474, 10/645,797, 10/80-6,424 and 10/645,795 has been reviewed and is accepted. The terminal disclaimer has been recorded.

## **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance: This application teaches an ink for ink jet recording comprising dye of the formula  
$$A-N=N-B$$
wherein A and B each independently represent a heterocyclic group which may be substituted having a  $\lambda_{max}$  of from 390 to 470 nm; an  $I(\lambda_{max} + 70 \text{ nm})/I(\lambda_{max})$  ratio of not greater than 0.4 and a forced fading rate constant of not greater than  $5.0 \times 10^{-2}$  [hour<sup>-1</sup>] that is determined as claimed by applicants and the total amount of a cation in the ink except for a monovalent metal ion, a hydrogen ion, an ammonium ion, an organic quaternary nitrogen ion and an ion produced by the proton addition to a nitrogen atom in a basic organic material is 0.5 wt% or less. The closest prior art of record is U.S. Patent Application Publication No's. 2004/0020408, 2004/0053988 and 2004/0050291, issued to Yabuki, Taguchi et al. and Taguchi et al. respectively, however, applicants have filed a certified English translation of their foreign priority

Art Unit: 1755

which entitles them to a date of September 30, 2002 which is earlier than any of the effective filing dates of the above U.S. Patent Application Publication No's. Accordingly, the 102(e) rejections over each of the above references have been overcome and the application is allowable.

Applicants should note that the examiner has cited U.S. Patent Application Publication 2004/0094064, issued to Taguchi et al. however no rejections have been made over this reference since the filing date of the above reference is after the filing date of the instant application (i.e. no 102(e) rejection). The only possible rejection would be an obviousness type double patenting rejection and as per MPEP 804, if this is the only remaining rejection the earlier filed application should be passed to issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Helene Klemanski whose telephone number is (571) 272-1370. The examiner can normally be reached on Monday-Friday 5:30-2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on (571) 272-1233. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
